

QED-1616

Quality Engraving & Design, Inc. (QED) manufactures its Annunciators in both directory and graphic styles. They can be mounted either flush or surface.

The surface mount Annunciator has a traditional picture frame design with a door lock. This allows for convenient removal and re-assembly of the front panel. The recessed Annunciator has a traditional picture frame design in architectural gray aluminum without a hinge. This type has a hidden screw construction to provide tamper resistance.

Annunciator models include:

- > Smoked Plexiglas--White silk-screened graphics, backlit, protected by a layer of non-glare Plexiglas
- > Micarta--Black, Red or White
- > Various Metals-- Stainless Steel, Aluminum, Brass or Bronze
