

Annunciators

Kensington MD 301-949-6230 Fax: 301-949-6233

Quality Annunciators are available in either directory or Graphic styles. Both come with a variety of standard and optional features (listed below).

In addition, because all work is done on the premises, Quality is able to offer you a wide variety of special options to meet the most challenging specifications.

These include a variety of sizes, letter styles and material - micarta , metal or backlit. Mounting may be either flush or surface. Other special features might include fan control switches, fan status LEDs, diode matrix functions, or auxiliary function controls. Alarm silence and reset key switches are also available.
